BrightPath Technologies

Company Handbook and Product Overview

Sample document. BrightPath Technologies is a fictional company. All names, people and numbers in this document are made up for testing a document question-answering chatbot.

1. About the Company

BrightPath Technologies was founded in 2018 in Pune, India by Meera Kulkarni and Arjun Rao. The company builds education technology products for schools and students. Its headquarters are in Pune, and it also has offices in Bengaluru and Singapore.

As of 2025, BrightPath Technologies has 240 employees across engineering, design, teaching content, sales and support. The company's mission is to make quality learning accessible to every student, regardless of where they live.

The main product of the company is LearnLoop, an online learning platform for school students in grades 6 to 12. LearnLoop has 1.2 million registered students and is used by 4,500 partner schools across India and Southeast Asia.

The company values are curiosity, ownership and kindness. Teams are encouraged to run small experiments, share results openly and learn from mistakes without blame.

2. Products and Technology

LearnLoop offers recorded video lessons, live classes, practice quizzes and progress reports for parents and teachers. Mobile apps are available for Android and iOS, and the web version works in all modern browsers.

The LearnLoop backend is written in Python using the Django framework. The web frontend is built with React. The platform uses PostgreSQL as its main database and is hosted on Amazon Web Services (AWS).

In March 2024 the company launched the AI Tutor feature, which answers student doubts using content from approved textbooks. The AI Tutor only answers from the school syllabus and shows the chapter it used, so that teachers can verify each answer.

The platform maintains 99.9 percent uptime. The customer support team replies to every ticket within 4 hours on working days. Schools receive a monthly usage report showing attendance, quiz scores and the most difficult topics.

3. Employee Policies

Working hours are 9:30 AM to 6:30 PM, Monday to Friday. BrightPath follows a hybrid model: employees work from the office on Tuesday, Wednesday and Thursday, and work remotely on Monday and Friday.

Every employee receives 24 days of paid annual leave per year and 10 days of paid sick leave. Maternity leave is 26 weeks and paternity leave is 10 days. Public holidays are announced at the start of each year.

New employees have a probation period of 3 months. After confirmation, the notice period for resignation is 60 days.

Each employee gets a learning budget of Rs. 30,000 per year, which can be used for courses, books and conferences. Managers approve the request, and the amount does not carry over to the next year.

4. Financial Highlights, FY 2025

In the financial year 2025, BrightPath Technologies reported a revenue of Rs. 86 crore, which is a growth of 42 percent compared with the previous year. The net profit for the year was Rs. 9 crore.

The customer retention rate among partner schools was 91 percent. During the year, 1,100 new schools joined the platform. The largest share of new schools came from Maharashtra, Karnataka and Tamil Nadu.

The company plans to spend most of its next year budget on improving the AI Tutor, launching content in regional languages and expanding the Singapore office to support schools in Southeast Asia.

5. Hiring and Contact

The hiring process at BrightPath has four rounds: an online assessment, a technical interview, a case or system design round, and a final HR round. Most candidates hear back within one week after the final round.

Employees who refer a candidate that gets hired receive a referral bonus of Rs. 25,000 after the new joiner completes 3 months.

For customer support, write to support@brightpath.example. For job applications, write to careers@brightpath.example. The Pune office is open from 9:30 AM to 6:30 PM on working days.
